## C15. Mail Order Pharmacies

You can get prescription drugs shipped to your home through our network mail-order delivery program. After the pharmacy receives a prescription from a health care provider, it will contact you to see if you want the medication filled immediately or at a later time. This will give you an opportunity to make sure that the pharmacy is delivering the correct drug (including strength, amount, and form) and, if needed, allow you to stop or delay the order before it is shipped.

Typically, you should expect to get your prescription drugs within 14 days from the time that the mail-order pharmacy gets the order. If you do not get your prescription drug(s) within this time please contact us at 1-855-670-5935 (TTY: 711). To learn more about mail-order pharmacies, see Chapter 5 of the Evidence of Coverage.
